Background

The Professionals for Reform Support Mechanism (PRSM) provides human resource support – from managers to technical experts - to critical reform initiatives undertaken by national governmental agencies. PRSM is a multi-donor platform, which improves coordination of donor efforts for greater impact and avoids overlap of donor funding. It does not support routine work of the Government of Ukraine that is normally managed by the civil service. To do this, PRSM:

- **Selects initiatives** based on clearly defined links to reform initiatives;
- Ensures transparent **recruitment** of human resources;
- Manages the **contracting** and payment of human resources;
- Provides financial **reports** for donors;
- **Monitors** initiatives for results.

Decentralization is the absolute priority in the large-scale reforms program having been implemented by the Government of Ukraine since 2014. 1. General coordination and support in decentralization reform implementation in the country, including sectoral one.

3. Communication and support of positive image of the reform.

At the same time, the Minregion has initiated implementation of the Project Office for Sectoral Decentralization (POSD) – independent non-governmental structure financed by the donors and authorised by the Minregion to coordinate implementation of sectoral policy on decentralization in the relevant ministries and authorities.
